

This document provides the basic information about this fund. It's not marketing material. The information is required by law to help you understand the nature and risks of investing in this subfund. You are advised to read it so you can make an informed decision about whether to invest.

Harmonized investment fund “Finasta Umbrella Fund” - Finasta Emerging Europe Bond Subfund (ISIN code: LTIF00000468)

This subfund is managed by Finasta Asset Management UAB (hereinafter – the Management Company), which belongs to the financial group Finasta.

Objectives and Investment Policy

The objective of the subfund is to ensure balanced growth of the asset of the subfund. Up to 100 per cent of the subfund assets are invested in the debt securities of the most promising developing European government and companies selected by the managers.

The subfund combines the riskier (bonds of companies) and safer (bonds of governments) investments in order to protect the value of assets and to ensure a stable return on investment.

The assets of the subfund are invested in the Middle and East European region, but the investments of the subfund are not limited to any branch of economy or different term and credit rating bonds.

If the situation in the market cannot offer better investment opportunities, up to 100 per cent of the assets of the subfund may be invested in deposits, money market instruments and investment units (shares) of harmonized collective investment undertakings, the main investment direction of which is money market instruments or bonds and non-equity securities of other forms. The assets of the subfund may be invested in derivative financial instruments, if they are used for risk management.

The subfund's benchmark – 0,5 * JP Morgan Euro Emerging Markets Bond Index Diversified Europe (JP Morgan Euro EMBI Diversified Europe) + 0,4 * JP Morgan Corporate Emerging Markets Bond Index Broad Europe (CEMBI Broad Europe) + 0,1 * VILIBOR 1 Month. The Management Company can, at its sole discretion, choose specific investments. The benchmark is used indirectly, which signifies an aim not to replicate the results of the benchmark, but to surpass them.

The subfund focuses on experienced investors. Recommendation: this subfund can be inappropriate for the investors that plan to withdraw money sooner than in 1-2 years.

The subfund's income is not distributed to participants, but it is re-invested.

Please note that you can redeem your investment upon demand. This subfund deals on every business day. Your investment units will be denominated in EUR, the subfund's base currency. The minimum initial investment for this subfund is EUR 30.

Risks and Reward Profile

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The risk and reward indicator shows a ratio between the subfund's risk and reward. The further the subfund is in this scale, the higher the possibilities of a probable reward, but also the higher the risk to lose money. The first category does not mean that an investment is risk-free.

The risk category is calculated on the basis of the data from the previous year, which cannot reliably show the future risk profile and do not guarantee the future results of the subfund.

The subfund belongs to the fourth category. This means that the risk of changes in the subfund's value is medium.

The risk-return ratio in the scale is not guaranteed and over time it can rise and fall (the subfund can be ascribed to another category).

Here are the types of the risks, which are relevant to the subfund and underestimated when calculating the indicator:

Credit risk. The risk of incurring losses on securities of the issuer's failure to meet its financial obligations.

Liquidity risk. The risk to incur losses as a result of low market liquidity that does not allow selling the financial instruments at the desired time and for the desired price.

Counterparty risk. The risk that the counterparty shall fail to perform its obligations. Efforts are made to minimize this risk by concluding transactions with reliable and experienced financial institutions.

Operational risk. The risk to incur losses as a result of system failures, human errors or external events, including political or legal risks..

Efforts are made to prevent from adverse market changes for a certain period of time and to reduce the influence of adverse risk factors through the use of derivative financial instruments.

Charges for this Subfund

The charges you pay are used to pay the costs of running the subfund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

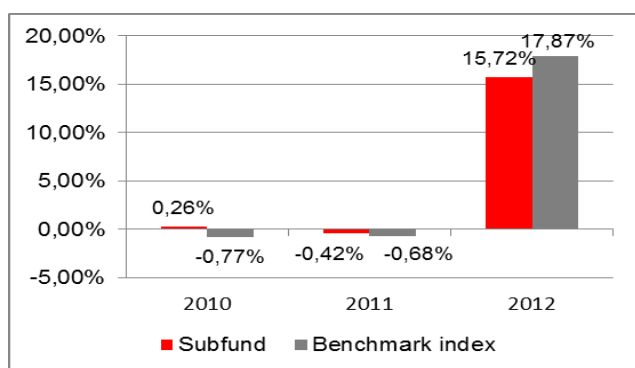

One-off charge taken before investment or after investment:	
Distribution fee	1.00 %
Redemption fee	N/A
Subfund change fee	0.25 %
This is the maximum that might be taken out of your money before it is invested/before the proceeds of your investment are paid out.	
Charges taken from the subfund over a year:	
Annual fee	1.15 %
Charges taken from the subfund under certain specific conditions:	
Performance fee	N/A

The table provides the highest distribution, redemption and subfund change fees. In some cases you might have to pay less; you can learn more about specific fee rates from your financial adviser or distributor.

The amount of the annual fee is based on the expenses during the previous year ended December 2012; it can change every year. This fee does not include the performance fee and expenses on the conclusion of the transactions with the subfund's assets, with the exception of the cases when the distribution and (or) redemption fees are covered from the assets of the subfund when buying or selling the investment units or shares of another collective investment undertaking on behalf of the subfund.

For more information about the applicable charges, please see the prospectus of the fund (pages 12-16/ Chapter 17 - „Expenses“), which you can find: www.finasta.com.

Past Performance

The subfund was launched on 29 October 2010.

Past performance results are calculated in euros.

The calculation of the subfund's past performance results includes all and any fees, with the exception of single distribution fee.

Past performance results do not guarantee future results. The value of the subfund's units can do both rise and fall.
