Harmonized investment fund “Finasta Umbrella Fund” - Finasta Russia TOP20 Subfund (ISIN code: LTIF00000435)

This subfund is managed by Finasta Asset Management UAB (hereinafter – the Management Company), which belongs to the financial group Finasta.

Objectives and Investment Policy

The objectives of the subfund is to achieve the maximum return from investments in the shares of the Russian companies. The assets of the subfund are invested in the financial instruments of the companies operating in the Russian Federation and collective investment undertakings that make investments in the Russian companies.

Up to 100 percent of the subfund's investments are composed of investments in shares. No more than 33 percent of the assets of the subfund can be invested beyond the Russian Federation in the financial instruments of the companies operating in other CIS states (including the former CIS states). Up to 10 percent of the assets of the subfund can be invested in bonds and other forms of non-equity securities (of governments and companies). There are no restrictions on industrial and other market sectors; therefore, we can invest in each industrial sector up to 100 percent of the assets of the subfund.

The subfund's investment is based on both the strategic and tactical asset allocation techniques and frequent portfolio adjustments in order to achieve higher portfolio gains. The changing situation on stock exchanges can inflict substantial variations in the net asset value of the subfund.

The subfund's benchmark - Russian Trading System Index (RTSI). The Management Company can, at its sole discretion, choose specific investments. The benchmark is used indirectly, which signifies an aim not to replicate the results of the benchmark, but to surpass them.

The subfund focuses on experienced investors. Recommendation: this subfund can be inappropriate for the investors that plan to withdraw money sooner than in 5 years.

The subfund's income is not distributed to participants, but it is re-invested.

Please note that you can redeem your investment upon demand by presenting a redemption order form to the Management Company directly or through Funds distributor.

This subfund deals on every business day. Your investment units will be denominated in EUR, the subfund's base currency. The minimum initial investment for this subfund is EUR 30.

Risks and Reward Profile

The risk and reward indicator shows a ratio between the subfund's risk and reward. The further the subfund is in this scale, the higher the possibilities of a probable reward, but also the higher the risk to lose money. The first category does not mean that an investment is risk-free.

The risk category is calculated on the basis of the data from the previous year, which cannot reliably show the future risk profile and do not guarantee the future results of the subfund. The subfund belongs to the 7th category. This means that the risk of changes in the subfund's value is high.

The risk-return ratio in the scale is not guaranteed and over time it can rise and fall (the subfund can be ascribed to another category).

Here are the types of the risks, which are relevant to the subfund and underestimated when calculating the indicator:

Counterparty risk. The risk that the counterparty shall fail to perform its obligations and Fund may expose financial loss. Efforts are made to minimize this risk by concluding transactions with reliable and experienced financial institutions.

Market liquidity risk. The risk to incur losses as a result of low market liquidity that does not allow selling the financial instruments at the desired time and for the desired price.

Currency exchange risk. The risk to experience high fluctuations in foreign currency exchange rate, which can reduce the value of Fund's investments.

Operational risk. The risk to incur losses as a result of system failures, human errors or external events, including political or legal risks.

Efforts are made to prevent from adverse market changes for a certain period of time and to reduce the influence of adverse risk factors through the use of derivative financial instruments.
