The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

PRODUCT

INVL Index Plus 80 investment basket

PRIIP manufacturer INVL Life, UADB (INVL Life), www.invl.com. For further information, call +370 700 55 959. Regulated by the Bank of Lithuania. Release Date: 01/07/2022

You are about to purchase a product that is not simple and may be difficult to understand.

WHAT IS THIS PRODUCT?

Type: The investment basket, which is an investment product specified by the insurance company, to whose value development the value of the insurance can be tied. The investment basket cannot be acquired separately; it is part of unit-linked insurance.

Objectives: A combined strategy of investing in stocks and bonds, including their equivalent financial instruments, with the aim of increasing the value of assets at a lower risk than the equity market. This is achieved through the active portfolio management using a variety of investment objects such as collective investment undertakings, stocks, debt securities, derivatives or alternative investments. The strategic weight for asset classes other than debt securities is around 80%, but the share of these investments can vary between 60% and 100% of the assets depending on market conditions and other circumstances. This means that the proportions of fixed income, equities and alternative investments

can vary significantly between periods. Proportion of alternative investments may represent up to 30% of the assets. Derivatives can be used to hedge against currency exchange rate change risk.

Intended Retail Investor: The investment basket suits investors who seek an average return on the equity markets in the long term and accept the risk of losing capital and returns.

Product term: The recommended investment period is at least 4 years. This product does not have a maturity date, it is a continuous investment basket. The insurance company has a unilateral right to cancel the investment basket without a specific reason by informing the customer of the cancellation within a reasonable amount of time.

WHAT ARE THE RISKS & WHAT COULD I GET IN RETURN?

The risk indicator gives a picture of how this product's risk level relates to the risk level of other products.

The risk indicator assumes you keep the product for 4 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

According to PRIIPS regulation, this product's risk level is 4 out of 7, which is a medium risk class.

The Investment Basket does not have capital protection. The value of investment objects may increase or decrease. The investment basket has a high return risk and capital risk.

Return risk and capital risk mean that investors may lose the capital that they have invested as well as the returns in part or in full.

The risk-reward profile and risk category of the Investment Basket are subject to change. It is not possible to predict the future development of the fund's risk and reward profile and risk category based on the historical data of the Investment Basket's risk category. Not even the lowest risk category (1) means that the investment is completely risk-free.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

SCENARIOS	1 YEAR	2 YEARS	4 YEARS*
Stressed Scenario			
What you might get back after costs EUR	2 205,27	6 970,16	5 852,90

What you might get back after costs EUR	12 574,35	14 402,77	18 153,60
Average return each year %	25,74	20,01	16,08

*Recommended holding period

This table, according to the PRIIPS regulation, shows the money you could get back over the next 4 years, under different scenarios, assuming that you invest 10,000.00 €.

The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment/product. The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

The figures shown include all the costs of the product itself, and includes the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

WHAT HAPPENS IF INVL LIFE IS UNABLE TO PAY OUT?

The product is not covered by the Investors' Compensation Fund or the Deposit Guarantee Fund. The investor may lose all or part of return and the capital he or she has invested in the investment basket. If the insurance company is placed in liquidation or bankruptcy, the interests of the policyholders are secured such that all insurance receivables, regardless of the insurance class and line, hold first preference to all of the company's assets during the company's liquidation and bankruptcy above all other receivables targeted at the company.

WHAT ARE THE COSTS?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs. The table shows what the costs, including potential exit penalties, could mean for different holding periods. The figures assume you invest 10,000.00 €. The figures shown are partially based on data from the past and therefore may change in the future.

Costs Over Time

INVESTMENT SCENARIOS 10,000.00 €	IF YOU CASH IN AFTER 1 Y	IF YOU CASH IN AFTER 2 Y	IF YOU CASH IN AFTER 4 Y*
Total cost (EUR)	146,12	302,47	648,75
Impact on return (RIY) per year %	1,46	1,46	1,46

*Recommended holding period

Composition of Costs

ONE - OFF COSTS

Entry Costs %	0,00	The impact of the costs you pay when entering your investment.
Exit Costs %	0,00	The impact of the costs of exiting your investment when it matures.

Composition of Costs (continued)

ONGOING COSTS

Portfolio Transaction costs %	0,04	The impact of the costs of us buying and selling underlying investments for the product.
Other ongoing costs %	1,42	The impact of the costs that we take each year for managing your investments.

INCIDENTAL COSTS

Performance fees %	0,00	The impact of the performance fee.
Carried Interests %	0,00	The impact of carried interests.

Specification of other ongoing costs: Investment basket's management fee 1,10 % is included in Other Ongoing costs.

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended minimum holding period: 4 years

The investor can relinquish their investment at a value calculated for the investment basket on each banking day. This will not result in additional costs for the customer. In order to achieve the targeted return, the product needs to be kept for the recommended minimum investment period, i.e. 4 years.

HOW CAN I COMPLAIN?

The customer can complain about the product, the activities of the product's developer or the party selling the product/ providing advice by contacting INVL Life either on our Web Service through an online message at the address www.invl.com or calling our customer services at tel. +370 700 55 959. The complaint can also be made by letter or e-mail. The feedback or complain will be handled according to current legislation.

Postal Address: INVL Life, UAB Gyneju str. 14 L01109 Vilnius
